

# MEET OUR NEW MENTAL HEALTH THERAPIST!

**Leslie Moorehead**  
**Masters in Social Work**

Students at Glenwood School District have the opportunity to receive therapy services through ESD 112 this year. The Behavior Health Program provides students with individual therapy services for the school year with the possibility of small groups in the future! If you want to learn more, contact our Glenwood School Counselor, Bridget McLaughlin with your questions or referrals. Leslie Moorehead, LICSW-A, ESD 112 Mental Health Therapist, is excited to work with Glenwood School District this school year (and summer) to build relationships with the students, families, and community.

Leslie Moorehead is a social worker with a background in journalism. She graduated from the University of Oklahoma with a Bachelors of Arts in Journalism before tumbling into a career in social work. Leslie received her Masters of Social Work from the University of Southern California and is currently pursuing her PhD in Social Work from Our Lady of the Lake University. Leslie loves to learn and encourages learning with the students she works with, utilizing play therapy and art therapy as well as her training in Cognitive Behavioral Therapy and Dialectical Behavioral Therapy. In all of her roles, she has focused on empathy and understanding, on asking questions to authentically know someone's story. She is a licensed associate in Washington and is pursuing full independence licensure as well as pursuing licensing in Oregon. Leslie is excited to encourage lifelong learning for the students this year, just as she has for herself.
